13

OUTDOOR EQUIPMENT

Use our outdoor games and activities for your next event or family get-together instead of buying your own!

17

PERSONAL WELLNESS

Try out some of our wellness technology!

Library of Things

Collection Policy

This is a condensed version of this policy. Check out the full policy on our website: carterlakelibrary.org

The Library of Things is a collection of non-traditional items that complement the Carter Lake Library's Vision that fosters creativity, innovation, literacy, and lifelong learning for all ages. Patrons who borrow a "thing" agree to abide by the Carter Lake Library's Library of things lending guidelines below:

Use and Borrowing Guidelines

- A valid Carter Lake Library card with no outstanding fines above \$10 is required to borrow a Thing.
- All Library of Things items must be checked out and returned to the Circulation Desk. The Book Drop should not be used for returns.
- Due to the nature of the items, they are not shared via delivery with other libraries in the SILO/IA Shares network.
- The library reserves the right to temporarily remove a Thing from circulation for library purposes or repairs.

Loan Periods and Fees

- Most Things may be borrowed for 1-week intervals and can be renewed up to 2 times, unless there is a waiting list.
- Special items (E.G. metal detector, projector, tools) will follow the same borrowing period of 1 week, but with no renewals.
- Special items may require borrowers to be 18 years of age or older, or have parental consent with signature if under 18.

Proper Use and Liability

- Borrowers are responsible for the care and safe handling of borrowed Things.
- **The borrower will be billed for reasonable repair or replacement costs due to neglect or abuse.**
- **The Library is not liable for any injury, loss, or damage resulting from the use of a Thing.**
- Borrowers must return Things with all parts and components in their original condition and container to the Circulation Desk.
- Patrons are financially responsible for any damage to a Thing while in their possession.
- **\$5 cleaning fee will be charged to a patron's account if item is returned in dirty condition.**
- **A \$1 late fee will be charged each day a Thing is overdue.**

STEM/STEAM Kits

RENEWALS.

STEM stands for Science, Technology, Engineering, and Mathematics. It's an approach to learning that integrates these areas and encourages students to develop skills like problem solving, creativity, and critical thinking. STEM is often used in the context of education policy and curriculum choices in schools. It can have implications for workforce development, national security, and immigration policy.

There's no universal agreement on which disciplines are included in STEM. For example, some definitions include the social sciences, such as psychology, economics, and anthropology, while others consider these separate categories.

STEAM education is an interdisciplinary approach to learning that combines science, technology, engineering, arts, and mathematics to help students develop a wide range of skills.

STEAM education includes a variety of subjects, such as:

Music, Drama, Visual arts, Design, New media, Language arts, and Humanities.

Some say that integrating the arts into STEM education can enhance students' knowledge and appreciation of science and technology. For example, students might discover connections between anatomy and body and facial aesthetics, or between fluid dynamics and the aerodynamic aesthetics of car design.

STEM Magnet Kit

LOT 30 ID:
2022037

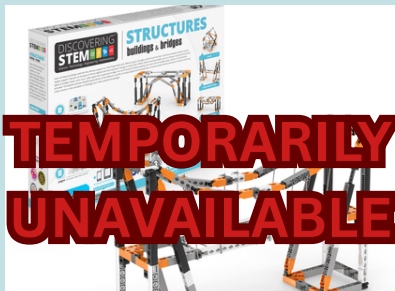

This classroom magnet set supports STEM by developing critical thinking and problem solving skills. Learn new concepts and broaden content vocabulary through numerous, hands-on experiments. Oversized pieces increase successful experimentation, while small magnetic components improve fine motor skills.

STEM Stars Kit

LOT 31 ID:
2022023

A Dual Function Planetary Projector brings the Nighttime Sky into your room. A Rotating Star Pattern of the Northern Sky is projected with 24 HD Space images. Choose HD images of Planets, Nebulae, Moons, Astronaut, Space Craft and Other Celestial Bodies. Over 50 different image combinations. Includes: dual planetary room planetary projector pack, image cover, 4 changeable slide discs, 360-degree motorized rotation, 24 HD space images, star pattern of the northern sky, and over 50 different image combinations. Auto shutoff/electric timer. Can be used as a nightlight.

STEM Bridges Kit

LOT 32 ID:
2022016

KIDS LEARN all about buildings. They'll discover all types of forces applied in buildings and Bridges and how they are designed to provide massive weight support. They can build 9 working models such as house, a pyramid, various types of bridges and more. EASY TO FOLLOW INSTRUCTIONS + INCLUDES 10 pages of theory and facts with explanations of the different scientific principles accompanied by fun experiments to test newly acquired knowledge. A 3 page quiz section is also included. CHOSEN as one of 21 best stem toys and gadgets to get your kid interested in tech. GENERAL- For ages 9+. Our Interactive 3D app lets children build in virtual reality.

STEM Specimen Observation

LOT 46 ID: 2022804

15 lifelike resin specimens, perfect for scientific research and multi scene decoration. The animal specimens are framed with transparent resin, with smooth edges and clear materials, making it easy for children to observe under a magnifying glass.

STEM Levers and Pulleys Kit
LOT 34 ID: 2022015

The set includes 130+ parts for a single child or team of 2 children to build 3 unique lever or pulley models: a balance, a wheelbarrow and a Sailboat. Students will learn about lever classes, pulley systems, resistance, effort, mechanical advantage and more! The experiment guide is aligned to National STEM standards and is appropriate for Grade levels 3-5.

STEM Human Body Kit
LOT 35 ID: 2022017

Take a fascinating tour of the human body as you remove 21 realistic vital organs, bones, and muscles using the included forceps and tweezers; then rebuild the model from the toes to skullcap 29 PIECES, EXCEPTIONAL VALUE: Includes 12" clear plastic human body model, stand, 9 squishy organs, 12 plastic bones and muscles, forceps, tweezers, body part organ-izer mat, instruction sheet, 24-page illustrated anatomy book STEM ANATOMY/BIOLOGY BOOK INCLUDED: Follow a slice of pizza as it travels through the body and interacts with different internal systems. With photos of real organs, engaging illustrations, and answers to common body function questions SMARTLAB TOYS, A LEADER IN EDUCATIONAL PLAY: Our toys allow children to add their individual insights, problem-solving skills, divergent thinking, and perseverance to their play as they learn and practice real-world skills and concepts PERFECT FOR BUDDING SCIENTISTS AGES 8 plus : Great anatomy and biology lesson plan for a homeschool curriculum or for any kid (or adult) fascinated with how their body works

Sphero Mini (1)
LOT 38 ID: 2022328

Programmable Coding Robot: The Sphero Mini is a tiny programmable robot ball packed with fun features like gyroscope, accelerometer, and colorful LED lights, designed as an engaging introduction to robotics and coding for beginners.

App-Powered Learning: Using the free Sphero Edu app, kids can learn to code by drawing paths, using drag-and-drop blocks, or writing JavaScript to control and customize games for the Sphero Mini.

Sphero Mini (2)
LOT 39 ID: 2022329

STEM Air Rockets Kit (1)
LOT 44
ID: 2022348

The set promotes physical activity, scientific exploration, and fine motor skill development, and is suitable for kids 8 years and up. The learning guide provides insight into the physics of motion and aerodynamics, making it an educational and fun outdoor toy.

STEM Air Rockets Kit (2)
LOT 45
ID: 2022349

The set promotes physical activity, scientific exploration, and fine motor skill development, and is suitable for kids 8 years and up. The learning guide provides insight into the physics of motion and aerodynamics, making it an educational and fun outdoor toy.

Around the House

This collection consists of items that make things a little easier or more enjoyable at home! Everything from artistic hobbies to car care, try out an items before committing to buying it!

ITEMS CHECK-OUTABLE FOR THOSE 18 AND OLDER; CHECK OUT PERIODS VARY. YOUNGER PATRONS NEED GUARDIAN PERMISSION TO CHECK OUT.

Car Code Scanner
LOT 15 ID:
2022010

The ANCEL AD310 is one of the best-selling OBD II scanners on the market and is recommended by Scotty Kilmer, a YouTuber and auto mechanic. It can easily determine the cause of the check engine light coming on, quickly read and clear diagnostic trouble codes, read live data & hard memory data, view freeze frame, I/M monitor readiness and collect vehicle information. Instead of taking car to mechanic shop, you can use it to check the trouble code and show code definition by yourself. Sturdy and Compact: Equipped with a 2.5 foot cable made of very thick, flexible insulation.

**TEMPORARILY
UNAVAILABLE**

Car Jump Starter
LOT 16 ID:
2022028

The ET03 car battery jump starter can easily jump-start all 12V common vehicles with up to 8.0L gas and 7.0L diesel engines in seconds with its peak current reaching 2500 amps. Supports 50 jump starts at most on a single charge and suitable for lawnmowers, motorcycles, passenger cars, trucks, and even boats, etc. **BACKUP PORTABLE POWER BANK:** This jump starter battery pack can also work as a 74Wh large battery capacity portable power bank to charge your smartphones, tablets, or other USB electric devices. Two 5V/2A USB output ports are packed on this jump starter that can be applied at the same time for charging, 50% faster than a standard charger.

Color Scanner
LOT 17 ID:
2022039
